

THE BIG CHALLENGE

The Big Challenge is coming to Italy for the first time!

Created in France in 1999 by a group of English teachers, The Big Challenge is a fun and educational contest targeted at students between the ages of 11 and 16. In 2016, over 600,000 students in France, Germany, Spain, Austria, Sweden, Poland and the Netherlands participated. This year, our English language contest is arriving in Italy.

The Big Challenge has received the European Language Label, an award recognising innovative initiatives in the field of language teaching and learning.

The contest takes place on school premises on individual computers or tablets. Students have 45 minutes to answer 45 questions covering listening and reading comprehension, vocabulary, pronunciation and civilisation. Results and corrections are published shortly after the date of the contest and prizes dispatched.

The Big Challenge aims at creating a motivating and rewarding experience for students and teachers. That is why all students, regardless of their score, will receive a diploma and a prize. The best scoring students will receive additional prizes including electronic devices!

Our next contest is on **Tuesday, 28 March 2017.**
